

# VISUAL ARTS

## Student-led

### CONFERENCES

As Pablo Picasso famously pronounced, *every child is an artist*. This truth came to light this week as primary students enthusiastically led parents on a tour of their learning in Visual Arts. These young artists confidently discussed their artwork, shared their favorite art books, and created art alongside their families.

### PYP EXHIBITION

Also this week, Year Five students exhibit their original art as part of their inquiries. These pieces are theirs uniquely, from concept through planning to completion. Through student action, collaborative stencil art has been created on the construction walls in primary. At right, ECH I makes their mark.

SEE YOU IN TERM FOUR!
